

Ultima CI-80 Shelving

Perfect for the growing business because it employs a modular system, Ultima CI-80 expands in any direction and is suitable for small parts of light to medium weight.

A common frame panel makes sideways extension simple while units are made mobile with Compactus[®] bases and runners. A wide range of accessories such as mesh backs and lockable swing doors allow you to switch between front office and backroom applications.

System Features:

- Versatile shelving system
- Adjustable shelving
- Various standard sizes available
- Option of increasing shelf load capacity with shelf stiffeners
- Add on frame finishing panels, rear covers and top extrusions for a clean smart finish
- A variety of integrated accessories to cater for all your storage needs
- Able to be integrated onto Compactus Mobile Storage Systems
- The Ultima CI-80 Shelving has been awarded a 'Level A' Greentag certification to help deliver greener project outcomes for our clients
- 10 Year Warranty—Conditions apply
