

## Heavy Duty Work Benches

Speedlock benches are made from the same beams and uprights that we use for our pallet racking, so they are the strongest benches around. They can be easily assembled, and can be customized with the addition of a top shelf, or by adding Maxi Bins or high density storage drawer system for small parts storage.

**\* Life Time Warranty**

### *Technical Specifications*

Bench height can be customized to user specifications.

Bench depths of: 600mm, 840mm, 1200mm. Other depths available on request.

Beam Lengths of: 1350mm, 2600mm, 2700mm. Other lengths available on request.

Beam Height: 75mm

Beam Pitch: 50mm

### *Features*

- Bolted frames and clip in beams
- Safety lock ensures beams are not dislodged and the undershelf provides added stability and is easily adjusted at any height along the upright
- Configurations can be tailored to suit any handyman's needs
- Incorporate louvred panels for storage of small parts, using bins and hooks.
- End caps fitted top of uprights to conceal any sharp edges
- Range of tops available: particle board, ply, melamine, steel wrap or stainless steel.

*Add castors to make it mobile*
